Royal England's First Vault Officially Launches in Hong Kong

* * *

Offers Comprehensive and Attentive Service and Extraordinary Experience to Customers

(Hong Kong, 21 April 2017) — **Royal England Safe Deposit Box LTD** (“Royal England” or “the Company”), a wholly-owned subsidiary of **Asia Allied Infrastructure Holdings Limited** (“**Asia Allied Infrastructure**” or “**the Group**”; **stock code: 00711**), celebrated today the soft opening of its first vault in Hong Kong at the Basement, 188 Des Voeux Road Central, Sheung Wan. The opening ceremony had the grace of many guests including Mr. Dominic Pang, Chairman of Asia Allied Infrastructure, who were impressed by the exceptional and high-privacy high-end safe deposit box service Royal England offers.

The overall security management and control and design of the Royal England vault, underscored by the philosophy of “Security First”, is provided by City Security Company Limited (“City Security”), which has close to 20 years of professional security service experience. City Security’s management team has received many international certifications affirming its capabilities and top service quality. Furthermore, the materials used to build the vault, the safe deposit boxes and other facilities are provided by European Union-certified UK manufacturer Burton Safes. The “Burton Safes” brand is deemed meeting European Committee for Standardization (CEN) EN 1143-1 VII (anti-theft and security) accreditation standards. To ensure the vault comply with EU safety requirements, dedicated professionals were sent by Burton Safes to take care of the installation on-site.

In addition to its top-notch security system and service, Royal England puts utmost attention on customers’ privacy and the confidentiality of customer information. The safe deposit box access system is the work of experts with prolific experience in security engineering gained at many high-end casinos in Macau. The system does it all with no manual involvement in the entire safe deposit box access process. The system takes care of authentication, allowing customers to make reservation using their phone or mobile App. To protect customers’ property and ensure confidentiality, authentication of identity is done using a host of different measures and provisions including password, biometric identification, independent key and encrypted authentication

programme of digital security company, among others. Moreover, the reservation procedure makes sure the customer is given a private space for access of the safe deposit box. The boxes are not numbered and a special spotlight system is used to show the position of a specific box, assuring customers that they have all-round protection and the most privacy.

Royal England's vault in Hong Kong is in the heart of Central/Western District, the core business area of the city. It spans about 5,000 sq ft and offers over 1,400 safe deposit boxes and promises customers the most luxurious reception service. In addition, Royal England provides round-the-clock service all-year-round including on holidays and regardless of weather conditions. Customers may also use its secure pick up and drop off service, evidencing the Group's commitment to satisfying all customer needs.

Mr. Dominic Pang, Chairman of Asia Allied Infrastructure, said, "The business of Royal England is built on the Group's determination to diversify its business. We are pleased that, supported by our rich experience in security services plus leading presence in the infrastructure development industry in Hong Kong, we are opening our first vault in Hong Kong in Sheung Wan to provide safe deposit box service to customers. The vault is equipped with the security system designed for casinos and safe deposit boxes that are EU anti-theft and safety certified and manufactured in Europe. And, complemented by our self-developed identity security measures, it can fully satisfy the need of high-end customers for premium personal safe deposit box rental service. We believe the opening of Royal England in Hong Kong marks the success of the Group in diversifying its business and, with our service scope expanded, we are enjoying greater synergies and competitive advantages, which are going to brace the long-term stable and sustainable growth of the Group."
